What our DJs come with.

Our DJs come equipped with a full set up - decks, speakers, wireless mic and a slick black-clothed table - it's all we need to bring the party! We can provide additional speaker set ups too - just ask for a quote.

Let's nail that music brief.

All our DJs live mix – this is what you're paying for! We just ask you let us know what genres, artists and songs you like, and importantly, what you DON'T like (eg the Nutbush, obvs).

We'll chat to you about your music tastes, but you can also share Spotify/Apple playlists you've been listening to/loving! Otherwise, click on our sample mixes above for some inspo!

Want some sax and beats?

Want some saxy vibes and someone on the drums for your celebration? Our <u>sax players</u> and <u>percussionists</u> are legends - they can also get in amongst your guests and inject awesome energy into the d-floor. They are \$770 incl. GST each for two hours.
