## Our DJ set up.

We come equipped with a full set up - DJ booth, decks, speakers (if required) and a wireless mic - it's all we need to bring the party! We can provide additional speaker set ups for ceremony and cocktail hour too (if they're in separate areas) - just ask for a quote! This is all included if we're your celebrant too, of course!

# Let's nail that music brief.

We mix music live at your event – this is what you're paying for (otherwise you may as well whack on a Spotify playlist!). You can check out the types of tunes we love to play by clicking on our sample mixes below!

▶ Wedding mix

▶ Disco mix

▶ Funk mix

▶ RnB mix

▶ Oldies mix

▶ Classic house mix

▶ Indie rock mix

▶ EDM mix

▶ Hip hop mix

Once we're booked in, we'll guide you through an online "party brief" to capture your music tastes, such as genres and artists you like, as well as what you DON'T like. You can also include links to playlists you've put together to give us more of an idea of the music you love!
